<p>We are pleased to take this opportunity to share a little bit about Hand in Hand. We want to share our vision and our background. First, we are a smaller, family-owned, family-oriented business. We understand the importance family plays in everyday decisions. We understand because we are also members of families we cherish. Consequently, we consider the interests and contributions of the family while meeting the needs of the individual client.</p> <p>Despite the fact that we are small, we offer a wide variety of services—for physical and emotional needs. Whether the need is related to speech, fine-motor skills, feeding difficulties, sensory issues, genetic disorders or traumatic brain injuries, we have professionals who can meet those needs through our pediatric clinic or First Steps services. We also have counseling services that deal with emotional issues including child behavior, emotional trauma, relationship enhancement, mood improvement, marital discord, divorce/separation, substance abuse, parenting, family conflict, dealing with infertility, coping with stress, anxiety management, self esteem enhancement, phobias, adoption, anger management, dealing with grief, and more.</p> <p>So whether it's the family atmosphere, the wide variety of services, or the ability to utilize private or public insurance that makes Hand In Hand the right place for you, we are happy to have you as part of our family.</p> <p>Through the variety of services Hand in Hand offers, it is our vision to help your family be the best you can be. We invite you to contact us with your questions and your dreams for your family. Because we know how important family is.</p>
